

General Maintenance Position – Wastewater Treatment Plant / Sewer System

Peters Township Sanitary Authority (PTSA) provides wastewater service to 6,000 customers in Washington County, PA, while owning and operating (2) wastewater treatment facilities, (9) pump stations and the associated conveyance system.

Experience: The ideal candidate will have five years of experience with wastewater equipment and sewer system maintenance or comparable experience. Position requires a PA Class B CDL license with airbrake and tanker endorsement or ability to obtain one during the probationary period. A Licensed PA Wastewater Operator (minimum Class B,E Subclass 1,4) is preferred. Additional financial incentives exist for employees who obtain wastewater operator certification and/or commercial plumbing certification.

Duties: The selected individual will be responsible for general maintenance of the facilities grounds, repair and troubleshooting of the mechanical and electrical equipment located at the treatment facilities and pump stations, along with sewer maintenance repairs utilizing jet/vacuum and CCTV equipment.

Application: Employment applications are available at ptsasonline.org. Submit resume, cover letter, and employment application by September 1, 2021 to ejenkins@ptsasonline.org, while listing GENERAL MAINTENANCE POSITION in the subject line of the email. Application materials can also be mailed to PTSA, ATTENTION: Enoch Jenkins 111 Bell Drive, McMurray, Pennsylvania 15317 by March 1, 2021. PTSA is an Equal Employment Opportunity, drug free and tobacco-free workplace.
