

### **Treatment Plant/Sewer System Maintenance Position**

**Peters Township Sanitary Authority** provides wastewater services to 6,000 customers in a growing community in northern Washington County PA, with a staff of 13 employees. Equal Employment Opportunity, drug-free and tobacco-free workplace.

**Experience:** The ideal candidate will have five years' experience in wastewater equipment and sewer maintenance or comparable experience. Position requires a PA CDL Class B license or ability to obtain one during probationary period. Preference provided to PA Certified Operators or similar registration.

**Duties:** The individual would be assigned to plant maintenance duties which include maintenance, repair and troubleshooting of treatment plant mechanical and electrical equipment and facilities, including regular operation of a 5000 gallon sludge tanker, and assist with sewer maintenance and repair, including operation of jet/vacuum equipment and CCTV equipment.

**Residency:** Not required, however, 30 minute emergency response time is required.
