

## **Maintenance Position - Wastewater Treatment Plant / Sewer System**

**Peters Township Sanitary Authority (PTSA)** provides wastewater service to 6,000 customers in Washington County, PA, while owning and operating (2) wastewater treatment facilities, (8) pump stations, and the associated conveyance system.

**Experience:** The ideal candidate will have five years of experience in wastewater equipment and sewer system maintenance or comparable experience. Position requires a PA Class B CDL license with airbrake and tanker endorsement or ability to obtain one during the probationary period. A licensed PA Wastewater Operator is preferred; however, the ability to pass the PA WW operator certification exam (B,E, 1 classification) within two years of the hire date is required. Commercial plumbing inspector certification is beneficial but not required.

**Duties:** The selected individual will be responsible for general maintenance of the facilities grounds, repair and troubleshooting of the mechanical and electrical equipment located at the treatment facilities and pump stations, along with sewer maintenance repairs utilizing jet/vacuum and CCTV equipment.

**Application:** Employment applications are available at [pstaonline.org](http://pstaonline.org). Submit resume, cover letter and employment application by August 31, 2018 to [ejenkins@pstaonline.org](mailto:ejenkins@pstaonline.org), while listing MAINTENANCE POSITION in the subject line of the email. PTSA is an Equal Employment Opportunity, drug free and tobacco-free workplace.
